WFuzzer

Challenges

Notes

what is fuzzing
https://www.wired.com/2016/06/hacker-lexicon-fuzzing/

tool website
https://github.com/xmendez/wfuzz

wfuzz --hh=24 -c -w /usr/share/dirb/wordlists/big.txt http://10.10.10.168:8080/FUZZ/
SuperSecureServer.py

- –hh (filter the length of characters in source code)
- -c (Output with colors)
- -w (Wordlist)
- FUZZ (FUZZ keyword will be replaced by the word from the wordlist)

wfuzz --hc=404 -c -w /usr/share/dirb/wordlists/big.txt http://10.10.10.168:8080/FUZZ/
SuperSecureServer.py

to filter on response 404
